## Get great value for your money!

All Hytile equipment is designed and built to go the distance.

Back in 2004 we offered a \$2,000 discount on a new Hoist to the person who sent in a photo of the oldest machine still in operation.

The winner, who bought his Hytile Cable Hoist on the 16th February in 1972, was not interested in a new Cable Hoist. He was still very happy with the one he had been using for the last 34 years and said "You made it too good. It's still going strong and will probably outlast me".

When you purchase Hytile Hoists, Elevators, Tilecutters or any other equipment manufactured by Hytile, not only do you get quality products, you get value for your hard earned dollar. And our great products are backed up with fast, friendly, helpful service, repairs and advice.

## Need a new hoist? Financing one is an option

For as little as the cost of a slab and half of beer each week, you can take possession of a new Hytile Rapid Return Cable Hoist. Give us a call for further information on 03 9725 4488

## NEW HYTILE AGENT IN NEW SOUTH WALES

### ROOF TILE RECYCLERS

79 Long Street,  
SMITHFIELD, NSW  
Phone: 02 9756 3350

Roof Tile Recyclers has been in operation for 20 years. David Buttel is the third generation of his family involved in the business of roof tiling.

David supplies a full range of **HYTILE** equipment, along with second-hand roof tiles, roof coatings, pointing, sand and cement.

Call in to say hello and see **HYTILE'S FOLDING, RAPID RETURN CABLE HOIST** in operation.

David's range of **HYTILE** products includes . . .

### TILECUTTERS

### TRIMMING TRAYS

### BEDDING FRAMES

### GUTTER PROTECTORS

### CABLE HOISTS

### BELT ELEVATORS

### RIDGE TARPS

### BATTEN TROLLEYS

. . .as well as spare parts for all your current equipment

# HYTILE FLEXIBLE POINTING

Hytile Flexible Pointing has now been out for 15 months and has firmly established itself as a favourite with roof tilers who want a great quality product that is easy to use.

We released it onto the market with the promise of a **“full refund if you’re not completely satisfied”**. It’s now fifteen months down the track and not one user has wanted their money back!

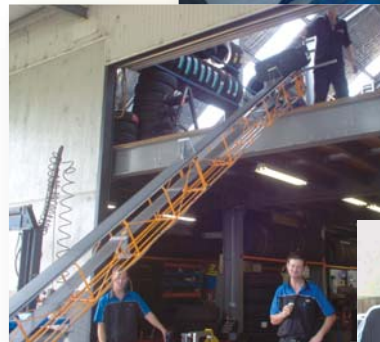

This durable, U.V. resistant pointing is available in a range of popular colours, and works well with **Quickset**, a spray used to help protect fresh pointing in the event of an unexpected downpour.

Give **Hytile** Flexible Pointing a try – you’ll be glad you did.

# Tumbi Tyres

Tumbi Umbi Tyres on the central coast in N.S.W. recently took delivery of a **Hytile** Belt Elevator to deliver tyres up to their mezzanine storage floor.

Previously, the tyres were each carried by hand up the stairs. The manager, Mark, says **“it now only takes us a couple of minutes to store 60 tyres – it’s the best thing the boss has bought!”**.

## CHRISTMAS HAMPER

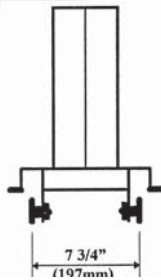

Pat Crane from Mt Louisa in north Queensland was the lucky winner of the Christmas Hamper.

It was delivered in time for Pat and his family to enjoy over Christmas – **“It was great,” says Pat “and the conveyor’s going great too!”** Pat has one of our Rapid Return Cable Hoists.

## Trolley Wheels

**Regular maintenance on your hoist will save you time and money**

Worn trolley wheels can wear out the tracking on your hoist, just as dented, damaged hoist sections can shorten the life of your trolley wheels – so it pays to keep them both in good working order.

To get the most out of your trolley wheels, regularly inspect the tracking to ensure that it is free from dents and debris.

When new trolley wheels are fitted, straighten the wheel supports and manually run the trolley along the full length of the tracking to ensure it moves smoothly.

**“We might all be successful if we followed the advice we give the other fellow.”**
