

## MERRY CHRISTMAS

From all of us at Hytile we would like to thank you for your custom during the year, and we wish you and your family a MERRY CHRISTMAS AND A SAFE, PROSPEROUS AND HAPPY NEW YEAR.

## CHRISTMAS BREAK

Our factory will close at lunchtime on Tuesday 23rd December 2003, and re-open on Monday 5th January 2004. By this time all of our staff will be sufficiently fed and rested, and ready to service and repair your machines in preparation for the new year.

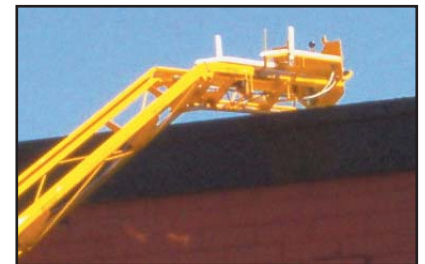

## HYTILE'S "RAPID RETURN"

### The new Ultra-light, "V" Shape, Folding Cable Hoist

Yet another addition to our range of Cable Hoists & Belt Elevators is the new "Rapid Return" model.

Taking advantage of new technology and re-designing the sections, has resulted in a machine that is far superior in speed and ease of use than anything else on the market.

The Roofing Wizard's Shane Hamilton has been road-testing this hoist for us since January and is absolutely delighted with how light, and how easy it is to use. He is very impressed with the increased speed of its operation, and says "There's no way I could go back to my old (standard speed) elevator now."

## WHICH POINTING COMPOUND DO YOU USE?

Hytile stock the following brands:

- Ezy Point,
- Elastomax,
- Selly's Point Works
- Ridge Bond
- Supa Point
- Ridge Point
- Mortastic
- Flexipoint

## Value for money at HYTILE

Cost cannot be separated from value. Value means a balance between the price of a product, how well the product does the job it was designed to do, how easy it is to operate, how long it can be expected to last, and the quality of the after-sales service.

Our 38 years experience in this industry is why you get excellent value at Hytile. Everybody wants the best products available for the best price, and while some do take the cheapest option regardless of quality, the vast majority will settle for value every time – and Hytile equipment is value.
