

T'IS THE SEASON!

Thank you very much for your custom this past year – we appreciate it. From all of us at Hytile we would like to wish you and your families a very Merry Christmas and a safe, prosperous, and happy New Year.

CHRISTMAS TRADING HOURS

HYTILE'S LAST DAY OF TRADING IS FRIDAY 22ND DEC

LOCAL CUSTOMERS who need supplies for the holiday period can come by on this day and we'll get you sorted. As usual, Faye will be firing up the BBQ, and Gary will be holding court with a beer, so feel free to join us for a cold one and a snag.

INTERSTATE CUSTOMERS please aim to get any last-minute orders in to us by Friday 15th of December. Hytile will resume trading in the new year on Monday 8th of January.

Hytile's new model Cable Hoist is too big to fit in Santa's sack, but don't let that stop you...

The NEW model LONGER 'Rapid-Return' Cable Hoist has everything you need. Its folded transportable length is still the same as a standard two-section Cable Hoist, but it will reach those high-set double storey jobs without having to fit in an extra piece.

With a total reach of 9.7m it is 1.2m longer than the standard 8.5m two-section machine. All Hytile Cable Hoists now have 'up' and 'down' controls at the top which makes roof stripping or stopping the trolley halfway up the roof simple.

LIGHT - The lightest roof tiling machine on the market

QUICK SET UP - Folds out and snaps into place, instantly ready to go

FAST - The empty trolley returns to base at twice the 'up' speed

SAFE - Low voltage top electrics

STABLE - A Brake on the base wheels

ADJUSTABLE 45° BEND - Operated easily from the roof

VARIABLE LENGTHS - 6.1m, 8.5m, #NEW9.7m, 12.2m, 15.8m

RELIABLE AFTER-SALES SERVICE - Hytile is 58 years old and still going strong!

If you think financing a new roof tiling machine might suit your circumstances, Malcolm Hall at AMH Finance would be pleased to help you. He's been assisting Hytile's customers for over 25 years. Give him a call on 0432 276 506 - he'll be pleased to answer any questions you have.

IN THIS ISSUE:

- Christmas trading hours
- New LONG Cable Hoist
- Service Tips for your Tilecutter
- Solar Panel Lifter
- Bedding Frames
- Batten Trolley

Cut straight, even valleys cleanly with no dust or danger

TILECUTTER TIPS

If the cutting action has become a little sloppy, new over-size bolts in the linkages will really make a difference. You can bring in your Tilecutters and have us fit them for you, or alternatively, call us and we'll send some out.

Keep the plunger barrel greased, and oil the links regularly to ensure a continued smooth cutting action.

HYTILE BEDDING FRAMES

Ensure your hip and ridge tiles are laid in straight, even lines with one of our Bedding Frames.

THERE ARE 7 MODELS TO CHOOSE FROM:

- STANDARD 3.6 mtr (12ft)
- SHORT STANDARD 1.8 mtr (6ft)
- EXTENDABLE: 4 - 6.1 mtr (13-20ft)
- SHORT EXTENDABLE 1.8 - 3.4mtr (6-11ft)
- ECONOMY 3.2mtr (10ft8in)
- SHORT ECONOMY 1.8mtr (6ft)
- LONG ECONOMY 4.5mtr (15ft)

HYTILE SOLAR PANEL LIFTER

Take the heavy lifting out of getting your solar panels (and tools) to the roof!

John McClain from McClain's Electric in Colorado had this to say about the new Hytile Solar Panel Lifter he took delivery of in August:

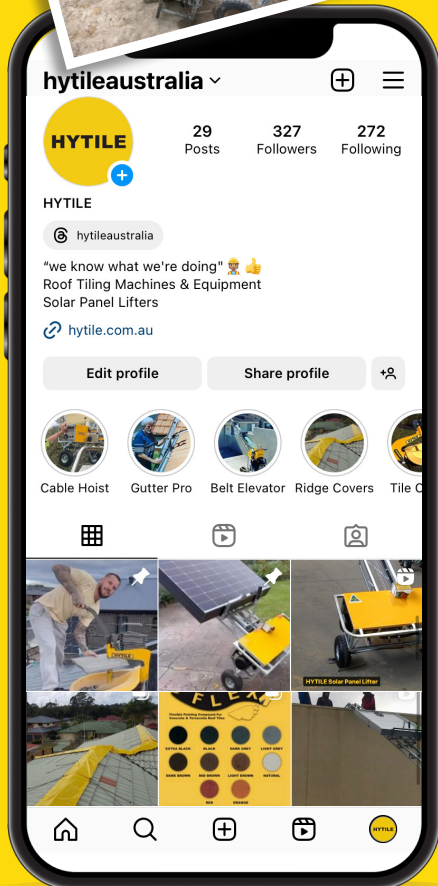

“**‘ELVIS’ HAS ARRIVED AND GOT HIS FIRST WORK OUT TODAY - DID WONDERFUL! SUPER HAPPY!**”

HYTILE

BATTEN TROLLEY

Batten Trolleys can be a big advantage in both speed and energy-saving. They make it easy to transport tiles from one end of a roof to the other and are particularly useful on long gable roofs
